Traffic is being allowed in the single lane. There is a single transport on site, without a load, and mostly consists of tractors, large farm equipment and personal pick-up trucks. There are approximately 26 in total. There are only two Cornwall Police officers on site.

Subject: SIBC TRACTOR BLOCK

Good morning,

The toll attendants on duty at Seaway International Bridge Crossing contacted me at 8:00am and notified me there were tractors moving in to attempt to block the cabal bridge, which connects to Cornwall, Ontario. I have attached a photo of the blockage. The general manager, Wade Dorland and the maintenance manager, Jody Wheeler are on site and Cornwall Police have been notified.
